STAFF
All individual, family, and group therapy sessions and evaluations are provided by licensed mental health professionals who also specialize in working with children and adolescents with sexual behavior problems (SBP).

REFERRALS
Referrals should be made using the VCC referral form which is available on the VCC website (www.villagecounselingcenter.net) or by calling (352) 373-8189. Once funding has been verified, an Intake Assessment will be scheduled directly by the Village Counseling Center.

- Family Preservation Services (FPS)
- Office of Victim’s Services
- The University of Florida
- Shands Hospital at Vista

VCC's primary program, the Sexual Abuse Prevention and Treatment (SAPT) Program provides pioneering services and is one of the leaders in North Central Florida in the provision of services for children and adolescents with sexual behavioral problems (SBP). VCC has successfully evaluated and treated hundreds of children and juveniles with sexual abuse, victimization and sexual behavior issues. Our services aim to ensure the most favorable outcome possible for children who are living in the aftermath of child sexual abuse. Our goal is to help children transcend the trauma of early childhood abuse, learn appropriate sexual behavior, and pursue safe, healthy, and productive lives.
